

FORWARD THINKING FOR THE BACK.

INTERGRAFT™

VERIFIED OSTEOINDUCTIVE STRIP TO FIT EXCLUSIVELY IN
THE VTI INTERFUSE™ SYSTEM

The InterGraft™ series features osteoinductive and wound care scaffolds to aid in implantation and overall surgical success. This includes Matrix OI®, demineralized bone matrix in various forms such as strips, blocks, crunch, and putty, each containing all 5 bone-forming elements (chondrocytes, osteocytes, bone marrow cells, cartilage, and new bone).

MANUFACTURER EXCELLENCE

InterGraft™ is a high quality, human biologics matrix that helps accelerate neovascularization and cell infiltration of damaged tissue, including orthopedics and neurosurgery; processed according to FDA regulations and AATB Standards.

InterGraft designed to contribute to Triple Aim
