

Interfuse T™

**A LESS INVASIVE TRANSFORAMINAL LUMBAR APPROACH.
ALIF FOOTPRINT. LESS INVASIVE. FUSION WITHOUT COMPROMISE.™**

Without question, VTI has engineered the best way to create a large footprint implant through a small access channel approach. Patented lateral expansion technology offers the benefits of a smaller incision, less trauma, faster recovery and proven clinical result. [Learn more at vti-spine.com](http://vti-spine.com).

FORWARD THINKING FOR THE BACK.™
